APPLICATION FOR ONE TIME DISCHARGE
TO SANITARY SEWER SYSTEM
(For PSTs)

To dispose of wastewater on a temporary basis, the following information must be signed by the applicant and furnished to our offices at least twenty-four hours in advance of the proposed discharge. All information must be completed and signed by the Permittee or its authorized representative before authorization can be given to discharge. After review of your submittal, we will contact you by mail or telephone to allow or deny the discharge.

At our option, we may inspect the site and collect samples. An application fee of $400.00 is required along with this form. In addition, fees for treatment of wastewater shall also be collected at the rate of $1.75 per 1000 gallons. If you need further assistance, please contact our offices at 972/466-3055.

1. Property owner or business owner, contact person, mailing address, telephone and fax numbers

2. Agent acting for owner, contact person, mailing address, telephone and fax numbers

3. Site location

4. Volume of proposed discharge

5. Date and time of proposed discharge

6. Process that produced wastewater

7. Treatment applied to wastewater

8. Original sampling report including chain of custody and quality assurance/quality control information for the following parameters:

Parameter	Maximum Allowable Concentration
Total Lead	0.9 mg/L
Total Petroleum Hydrocarbons	200 mg/L
Benzene, Ethylbenzene, Toluene & Xylenes	2.13 mg/L

A Permit to Discharge must be issued by this Office prior to beginning discharge and posted on site for the duration of the discharge. Failure to comply with this directive is a violation of the Carrollton Ordinance Section 21 punishable by fines of $2000.00 per violation per day.
