

INVENTORY

SECTION 3

SECTION 3: INVENTORY

During the first phase of the Master Plan process, a complete inventory was compiled of all existing parks, recreation facilities and open spaces within the City of Carrollton. Dunaway staff toured all the park sites with Carrollton Parks & Recreation Department staff. The City provided acreage and facility inventories for each of the parks, and lists of recreation associations and organizations throughout the City.

The following pages provide a complete inventory of the existing parks and recreational facilities within the City of Carrollton.
