1.20 SALES TAX

The total for each request for proposal submitted must include any applicable taxes. Although the City is exempt from most City, State, or Federal taxes, this is not true in all cases. It is suggested that taxes, if any, be separately identified, itemized, and stated on each request for proposal. The City cannot determine for the proposer whether or not the request for proposal is taxable to the City. The proposer through the proposer’s attorney or tax consultant must make such determination. Bills submitted for taxes after the request for proposals are awarded will not be honored.

7.2.2 The minimum percent shown above for material passing the No 50 (300 um) and No 100 (150 um) sieves may be reduced to 5 and 0, respectively, if the aggregate is to be used in air-entrained concrete containing more than 400 lb. of cement per cubic yard (237 kg/m³) or in non-air-entrained concrete containing more than 500 lb. of cement per cubic yard (297 kg/m³) or if an approved mineral admixture is used to supply the deficiency in percent passing these sieves. Air-entrained concrete is here considered to be concrete containing air-entraining cement of more than 3%.

7.2.3 The fine aggregate shall have not more than 45% passing any sieve and retained on the next consecutive sieve of those shown in 2.1, and its fineness modules shall be not less than 2.3 or more than 3.1.

7.2.4 Fine aggregate failing to meet the sieve analysis and fineness modulus requirements of 2.1, 2.2, or 2.3, may be accepted provided that concrete made with similar fine aggregate from the same source has an acceptable performance record in similar concrete construction; or, in the absence of a demonstrable service record, provided that it is demonstrated that concrete of the class specified, made with the fine aggregate under consideration, will have revellent properties at least equal to those of concrete made with the same ingredients, with the exception that a reference fine aggregate be used which is selected from a source having an acceptable performance record in similar concrete construction.

7.2.5 For continuing shipments of fine aggregate from a given source, the fineness modulus shall not vary more than 0.20 from the base fineness modulus. The base fineness modulus shall be that value that is typical of the source. If necessary, the base fineness modulus may be changed when approved by the purchaser.
7.3 DELETERIOUS SUBSTANCES

7.3.1 The amount of deleterious substances in fine aggregate shall not exceed the limits prescribed in Table 1.

7.3.2 ORGANIC IMPURITIES:

7.3.3 Fine aggregate shall be free if injurious amounts of organic impurities. Except as herein provided, aggregates subjected to the test for organic impurities and producing a color darker than the standard shall be rejected.

7.3.4 A fine aggregate failing in the test may be used, provided that, when tested for the effect of organic impurities and strength mortar, the relative strength at 7 days calculated in accordance with Test Method C 87, is not less than 95%.

7.3.5 Fine aggregate for use in concrete that will be subject to wetting, extended exposure to humid atmosphere, or contact with moist ground shall not contain any materials that are deleteriously reactive with the alkalis in the cement in an amount sufficient to cause excessive expansion of mortar or concrete, except that if such materials are present in injurious amounts, the fine aggregate may be used with a cement containing less than 0.60% alkalis calculated as sodium oxide equivalent (Na₂O + 0.658K₂O) or with the addition of a material that has been shown to prevent harmful expansion to the alkali-aggregate reaction.

7.4 SOUNDNESS

7.4.1 Except as provided in 7.2 and 7.3, fine aggregate subjected to five cycles of the soundness test shall have a weighted average loss not greater than 10% when sodium sulfate is used or 15% when magnesium sulfate is used.

7.4.2 Fine aggregate failing to meet the requirements of 4.1 may be accepted, provided that concrete of comparable properties, made from similar aggregate from the same source, has given satisfactory service when exposed to weathering similar to that to be encountered.

7.4.3 Fine aggregate not having a demonstrable service record and failing to meet the requirements of 4.1 may be accepted, provided it gives satisfactory results in concrete subjected to freezing and thawing tests as required by Test Method C 666.

CONFLICT OF INTEREST QUESTIONNAIRE

Chapter 176 of the Texas Local Government Code requires that any Vendor or person considering doing business with a local government entity disclose in the Questionnaire Form CIQ, the Vendor or person’s affiliation or business relationship that might cause a conflict of interest with a local government entity. By law, this questionnaire must be filed with the City Secretary of the city of Carrollton not less than the seventh business day after the person becomes aware of facts that require the statement to be filed.

The conflict of Interest Questionnaire must be completed and returned with your bid if a Vendor or its agent has a conflict pursuant to Chapter 176.

It is the responsibility of every Vendor filling out and returning this bid to determine if there is a conflict meeting the parameters listed above. If so, the City of Carrollton requires that this Questionnaire be completed and turned in with your bid. If there is no conflict, or if the amount of the conflict is less than $23,500, then you are not required to submit the Questionnaire with your bid. In addition to the foregoing, after the submission of a bid a Vendor must file a questionnaire if the Vendor becomes aware of facts or an event that would constitute a conflict pursuant to state law, or if the facts or event would make a statement in a previously filed questionnaire incomplete or inaccurate.

See Section 176.006, Local Government Code which reads, “A person commits an offense if the person violated Section 176.006, Local Government Code. An offense under this section is:
(1) A Class C misdemeanor if the contract amount is less than $1 million or if there is no contract amount for the contract;
(2) A Class B misdemeanor if the contract amount is at least $1 million but less than $5 million; or
(3) A Class A misdemeanor if the contract amount is at least $5 million.

The governing body of a local governmental entity may, at its discretion, declare a contract void if the governing body determines that a Vendor failed to file a conflict of interest questionnaire required by Section 176.006.

REQUEST FOR PROPOSAL CRITERIA/ MARKET CONDITIONS:

This is a Request For Proposal for Sand and Gravel. It is the City of Carrollton’s preference to award this contract to one vendor but the City reserves the right to choose secondary vendors also. An RFP allows for price negotiations after the bid opening, so Carrollton has chosen this bid format as a way of protecting vendors against future price increases. We have also built into this bid the ability to increase or decrease prices based on market conditions and verification. Both are listed below.

MARKET CONDITIONS

The City is aware of the extreme market fluctuations occurring for fuel increases related to the delivery/transportation of this product, so we are striving to arrive at a bid format that satisfies state bid law and also protects vendors against future price increases. To protect the vendor and the City, we will ask your company to establish a baseline price for the commodities listed. Prices can be negotiated after bids are opened. Then, based on increases and decreases that occur to the listed products over the term of the agreement, the City will allow increases or decreases in the same amount as the market changes. However, the winning vendor(s) will be asked to provide periodic documentation proving a change in price has occurred. If prices decrease over the term of this agreement, the winning vendor(s) will be expected to pass along those decreases in pricing. The City will assume that by submitting a bid under this format that your company agrees to this market protection. If you have a different method of price protection, please state it below:

__________________________________________________________________________________________
__________________________________________________________________________________________

MARKET VERIFICATION

Please state below the method of how your company proposes to confirm price changes to the City for commodities on this RFP:

__________________________________________________________________________________________
__________________________________________________________________________________________

RFP EVALUATION

The RFP will be awarded using the following criteria:

Pricing of requested service ................................................................. 50 %
Vendor History, References and Delivery Performance ......................... 25 %
Quality of Product ................................................................. 25%

RFP AWARD AND PRICING

After your response to this RFP is submitted, the City will negotiate a final price which is then approved by City Council. Prior to City Council approval, if any market changes occur the responding vendor must notify the Purchasing department of this immediately. Once this Council approval occurs, pricing will be subject to the Market Verification terms listed above for price increases and decreases.

Winning vendor(s) agree to commit to a year contract with the City of Carrollton to supply requested items. This contract will be renewable with or without price increases if mutually agreed upon by the Public Works/Purchasing Department and the vendor(s) for an additional two – one year renewal periods. After the award, vendors who have been awarded a contract and wish to propose adjusted pricing to the agreement due to changes in the market must do so through certified mail or via e-mail to the Purchasing Department. Documentation verifying the reason for the price increase must be sent as part of the request. Upon review of adjusted proposals, the City of Carrollton may elect to dissolve the existing contract upon its expiration date or accept the vendor’s proposal.
